REHAB FACILITY ...

Shirley Arseneau—Kindred Healthcare

~ from Shirley Arseneau's family: Please continue to pray for Shirley. She has been transferred from Grandview where she had been for treatment, to Kindred for further care. **The family requests not to call Ted at this time as he deals with everything. Cards sent to the house are greatly appreciated.**

~from Dave Hunt: My mom has still been under sedation levels for the week trying to still control seizures. I think the next day or two will be pivotal. They are going to reduce sedation levels again and see how she reacts. Continued prayers that she is able to come out of this. If not please pray that we are given some sign by God to make the best decision possible for my mom. This being in limbo is difficult. The good news is that my mom has been sleeping so not in pain. Thank you!!
